(c) Eye work is flourishing year by year and is very much appreciated by the public, there being 4111 cases of the eye alone as compared with 3396 of the preceding year. There is a separate Department for eye and other special organs.

Female Department.

The Muir Maternity Fund Hospital opened last year by the State to perpetuate the memory of Late Col. W. J. W. Muir, the well-wisher of the State is progressing fairly well and doing a lot of good in relieving the women and children from their sufferings. The two trained nurses alternately work at the Hospital and go round in the town and help the children and Pardah Nashin women.

The child and the maternity work is getting very popular and the number of the labour cases conducted this year has increased to 40 from 31 of the last year. The number of females and children treated has been 4961. The infantile and maternity mortality is being greatly reduced and the Public has begun to realize the importance of having labour conducted on hygienic and scientific principles.

There were 4 cases of Placenta Privia, 3 of Eclampsia, 2 of cross births, 24 of delayed labour and 4 of puerperal fever. Most of them required surgical interference and were successfully treated, resulting in greatly popularising the maternity work.

There were two cases of opium poisoning, all infants, mostly due to sheer ignorance on the part of their ignorant mothers. There were 8 cases of snake bite—the offender being generally the *Ecchis Carinata*. These all were successfully treated. Poison cases.

There was a severe epidemic of dysentery and rabies. Epidemic.

The dysentery was microscopically diagnosed to be of bacillary and amoebic and mixed type and consequently was rationally treated.

It is greatly in progress and proving its worth in diagnosing and fighting out diseases. Bacteriological Laboratory.

Malignant malaria, the typhoid, the dysentery and rabic epidemics were diagnosed on the spot and rationally treated. The rabid animals' brains were examined microscopically and showed Negri bodies and the 6 cases were given anti-rabic treatment here in Shahpura.

The total number of blood sputa and other pathological specimens examined and diagnosed at the laboratory has been 148. Madan Lall, Head dresser, has been taught the laboratory work and is of great help. In course of time, it is hoped that the Shahpura Laboratory would be fully equipped.

The inmates of the Jail enjoyed good health inspite of the dysentery and typhoid epidemics. Their rations and water supply were carefully supervised and they were well looked after and there was no mortality. Jail.

(a) The Brahma Boarding House is now removed to a more healthy place in the jungles near Nahar Sagar. It is remote from the city infections and the students are greatly progressing mentally and physically. The authorities are taking great interest in their welfare. The Boarding Houses.

(b) The Karamsot and Rajput Boarding Houses students also fared well inspite of malaria and dysentery epidemics.

The Ayur-vedic Umaid Aushdhalaya, opened under the auspices of Rajkumar Umaid Singhji and the public at the capital, is doing its level best in relieving the suffering humanity, and so also the Aushdhalayas at Kachhola and Sangria, and the travelling dispensary. The Ayurvedic Aushdhalayas travelling dispensary.

The number of patients treated by the Umaid Aushdhalaya and Kachhola Aushdhalaya which are in charge of qualified vaidyas is 6002 and 2137 respectively. The Sangria Aushdhalaya and the travelling dispensary are also playing their part fairly well.

CHAPTER VII.

EDUCATION DEPARTMENT.

Schools. The education imparted in the State may be technically divided into two departments.

The Raj School maintained at the capital imparts for the most part secondary education. Since the competitive Rajputana English Middle School examination has been abolished, the boys are examined here by the examiners selected by the School Committee. During the year under report 7 boys out of the 7 came out successful.

Primary education is also imparted in the lower classes attached to the Raj School and the City Branch School.

There were ten primary schools, namely Dhikola, Kothian, Kanechan Kalan, Rehr, Kadi-Sehna, Back-khera, Arur, Phulia-Kalan, Dohria, Amli-Kalan.

Three private aided schools exist at Daulatpura, Sangria and Dhanop and are maintained by Shriman Shriji Huzur Rajadhiraj Saheb, Rajkumar Umaid Singhji and Rajkumar Sardar Singhji respectively.

The highest examination for which the boys are prepared in the Hindi section is the vernacular Final Examination of the United Provinces. During the year under report five boys out of 9 came out successful.

There is also a Girls' School at the capital having on its roll 40 girls.

Three boarding houses are being maintained by the State namely (1) The Karamsot Rajput Boarding House (2) The Sudarsan Boarding House and (3) the Brahm Boarding House. The first and third are entirely maintained by the State while the second is wholly kept up at the expense of Rajkumar Umaid Singhji.

The Karamsot Rajput Boarding House named after the illustrious mother of Raja Dhiraj Saheb is attached to the Raj School and 27 boarders of all castes are on its roll, while the Sudarshan Boarding House, named after Bhanwar Shudarsah Singhji maintained 12 boys.

The Brahm Boarding House has on its roll 13 boarders and is maintained by the State.

The education in all the schools is free and scholarships are also awarded to deserving students joining the Government College and the High School Ajmer, and the Maharana High School Udaipur after finishing their education here. 18 scholarships amounting to Rs. 3123 were given during the year.
